

## Connect Box

UID0091

i DISPLAY's Connect Box is an exciting new accessory that integrates with i DISPLAY'S Retail Tablet, Android Advertising Display and Android Media Player to provide a unique retail experience. With 13 connector ports, the connect box provides a new way for retailers and brands to interact with customers. The Connect Box supports both mechanical push buttons and touch sensor buttons. Twelve ports are designed for push button interactivity, allowing retailers the opportunity to exhibit, in the point of sale, specific content that will play on customer demand. One port is specifically designed for motion sensor, which triggers the activation of content only when a customer presence is detected. The connect box provides retailers a unique and exciting way to keep customer entertained, educated and engaged.

Push Button Enabled
