

HAI OmniTouch with video

A great addition to your HAI Omni Controller! The simple to use and pleasing graphical interface provides a one-touch solution to controlling your home!

Turn lights on, off, or dim them for ambiance. Can also be used for control of your garage door, fireplace or pool & spa controls.

Conveniently check and adjust room and whole house temperatures for both energy savings and comfort.

This **newest** function marries both security and convenience. Video will appear on the OmniTouch when the doorbell rings so you know who is at the front door.

For the ultimate in home entertainment select music and adjust volume levels in individual rooms or the whole house. Your OmniTouch simulates the control screen of two of the most popular Multi-room audio systems available — Russound and NuVo.
