

DV-68

Multimedia Player

Product Preview

The DV-68 Digital Media Player provides multi-format support in a compact, industrial hardware design, which is specifically designed for the POP and Kiosk market. The DV-68 can store and playback full-motion audio/video clips from high speed Compact Flash memory cards (CF) with DVD quality audio/video output; MPEG-1, MPEG-2, MPEG-4 (DivX), JPG, and MP3 file formats. Create custom video scripts easily by simply using your computer with a standard CF card reader to drag and drop files to the CF memory card. The DV-68 incorporates solid-state technology that provides high picture quality without degradation, regardless of the number of playbacks, and a reliable, long lasting solution. The DV-68 player is also designed for instantaneous response to user input when a specific track is selected. A potential customer or user will not walk away in boredom or frustration. It connects easily to any NTSC, PAL, S-Video or VGA video monitor, amplified stereo audio system or multimedia POP displays. The DV-68 Multimedia Player is the perfect choice for any POP display, digital signage or interactive kiosk system due to its compact design, industrial design, and cost effective pricing.

Features

- Support multiple formats:
 - Photo: JPEG
 - Video: (DivX) MPEG-4, MPEG-2, MPEG-1
 - Audio: MP3
- Video out: VGA, S-Video, and Composite Video
- Audio out: Stereo L/R
- Support CF card type I/II and MicroDrive
- Instant track response
- Compact size: easily integrated into any size and style display
- Auto-play when powered ON
- Logo screen customization available upon request
- Optional USB 2.0 interface support 2.5" HDD (DV-68H)
- User friendly
- NTSC/PAL auto detection
- Slick design rugged aluminum housing

Benefits

- Long term durability - no moving parts
- Low maintenance – no tape to rewind
- Compact design – easy to install
- Reliable storage – re-programmable Compact Flash media
- A cost effective multimedia hardware solution

Applications

- POP displays
- Digital signage systems
- Interactive kiosks
- Mobile kiosks solutions

Specifications

System Type:	Digital Audio/Video playback
Format:	MPEG-1 (VCD), MPEG-2 (DVD), MPEG-4(DivX), JPG, MP3
Dimension:	7.1875"(L) x 5.25"(W) x 1.1875"(H)
Power Consumption:	4.8 W
Operating Current:	Max 400mA @ 12V
Operating Voltage:	12 VDC
Video Output:	NTSC/PAL
Audio Output:	Stereo (line level)
Storage Format:	<ul style="list-style-type: none"> • MPEG-2, MPEG-4 files require Ultra High Speed CF Card (min. 40x or up) • MPEG-1, MP3, and JPEG files require a regular CF Card • CF cards must be FAT or FAT 16 formatted
Storage Capacity:	128MB and up CF card or MicroDrive

Accessories

DV-66K, Keypad Controller

To connect and control the DV-68 player with an external input device, such as push buttons.

DV-66U, Universal Controller

To connect DV-68 player with an analog touch screen. Eight switch buttons per controller. PIR supported.

DV-68H, Hard Drive Adaptor Module

USB 2.0 High Speed Interface module for connect DV-68 player with 2.5" hard drive.
