

Concerto™

Experience ultimate sound.

NuVo's latest masterpiece is an elegant, intelligent, whole home audio system that combines our unparalleled performance with the industry's most innovative technology – at an affordable price.

With the Grand Concerto system from NuVo, enjoying uninterrupted, pure, digital sound is a reality in your home – from the master suite to your patio oasis.

Concerto Features:

- Six audio source inputs for multi-source capability, and up to eight zones of music (expandable to sixteen zones).
- 80 watts of power per zone – truly powerful home audio experience at any music level with NuVo's signature impeccable crisp, clean sound.
- Capacitive Touch Control Pads – elegant, smooth as glass, interactive surface with smart source feedback.
- Generation D design protocol featuring digital amplification – runs cooler, saves energy, outputs more power.
- Streamlined navigation – browse sources by play list, track, artist, album, genre, or station.
- Flexible set-up options – Source Grouping, Security, Volume Reset, Master Mode, and much more.
- 2.7" vivid OLED display – highly visible in any room lighting, displays up to 8 lines of text.
- Two "un-powered" zones – for use with the NV-P2100 auxiliary satellite amplifier, to power up to 6 speakers in a zone. Ideal for large living spaces or outdoor applications.
- Built-in infrared receiver for wireless control – designed to block adverse interference of plasma displays, sunlight, or fluorescent lighting.
- Fixed and variable line outputs – for use with high-power external amplifiers.
- NuVoNet Platform – Grand Concerto features plug-and-play compatibility with NuVo smart source components for a Complete Home Audio Solution.

Concerto™

Six Sound Sources. Eight Listening Zones.

Presenting the all new **Grand Concerto**
Accompanied by the most innovative control
pad you've ever seen.

With this much control, you may never leave
the house.

Elegant OLED

Designed for your customization and ease of use, the control pad features a large 2.7" OLED display. High light contrast and multiple character height options make readability easy in any light condition, at any angle, and from almost anywhere in the room. The cataloging capability allows easy browsing of selections and options while maintaining a sleek, elegant user interface. Menu options including universal favorites, source selection, zone settings, and system settings are just a touch away.

Adjust zone settings to fit the natural acoustics of the room including equalization, volume and display scheme settings. Apply Security, Source Privacy, Zone Slaving, Do Not Disturb and more to make sure your whole home audio experience fits your lifestyle.

Innovative Capacitive Touch

The unique use of Capacitive Touch technology bears a clean, minimalist look making the powerful control dim into the background when not in use, coming alive when in use. Lacking tactile buttons, the smooth surface instantaneously responds to a simple touch.

Intelligent NuVoNet

Designed on the NuVoNet platform, the Grand Concerto is the central control and driving force for all NuVoNet Smart Source Components. Pre-programmed for all versions of the T2 Tuner, the M3 Music Server, and the NuVo iPod Docks, the Control Pad provides bidirectional communication, RDS (Radio Data Service) feedback viewing, and full source control.

Bring Personal, terrestrial and extraterrestrial audio together in one complete whole home audio solution with the entire Grand Concerto Suite. Get the power of the Grand Concerto whole home audio distribution system, your personal music library from the M3, and the best of radio, all on one platform with uncompromising control.

OLED – 2.7" high contrast display communicates feedback clearly in any light environment or at any angle.

Magnetic Bezel – Removes easily for cleaning or to change trim plate color/style with decor. Ships with white, ivory, almond and black trim plates.

Capacitive Touch – Polycarbonate surface provides durable, precisely flat interface without mechanical tactile buttons.

Menu – Opens menu. Moves up one level when in menu mode or exits at top level of menu.

Power – Powers on/off zone with 1 second push or push and hold 3 seconds for All Off function. Mutes zone with a single tap.

XM-A
XM50 – The Loft
Coldplay
Clocks
