iDISPLAY™ Tablet 10.1" UIT210

WiFi * **3G** * **4G** **LTE**

BUILT FOR
COMMERCIAL USE
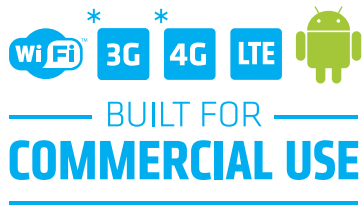

The iDISPLAY Tablet 10.1" has been built specifically for commercial use. Operating on an Android operating system and powered by Pulse technology, this display includes all of the solutions needed for commercial locations. Attach to any standard TV/monitor Vesa bracket - and just turn on the power. A fully interactive commercial display (with built in WiFi) and a host of integrated features, in either landscape or portrait format. Consumers are automatically restricted to viewing your own content. With the option to expand 3G/4G and GPS services* via a PCIE modem (inserted in the secure back cover), this is a superior alternative to consumer tablets and the ideal touch display for any commercial location.
