

Logitech®

Harmony® 1100

Advanced Universal Remote Control with 3.5" Color Touch Screen

Powerful Control Through a Customizable 3.5" Color Touch Screen

The Logitech® Harmony® 1100 gives you powerful home-entertainment control through a customizable, 3.5-inch full-color touch screen. Controls are easy to access and backlit so you can find them in the dark. One-touch, activity-based controls turn on the right devices in the right order with a single command. RF wireless capability lets you control devices without direct line-of-sight, so you can keep components in a closed cabinet or even another room (requires Logitech® Harmony RF Extender, sold separately). And the on-screen commands are customizable, so you get the commands you want, when you want them. Harmony supports 5000+ brands and 225,000+ devices.

Key Features

- One-touch, activity-based controls
- 3.5-inch, full-color touch screen
- Customizable commands, icons and screens
- RF wireless capability
- Rechargeable, complete with charging stand
- Support for 5,000+ brands and 225,000+ devices

Logitech®

Harmony® 1100

Advanced Universal Remote Control with 3.5" Color Touch Screen

One-Touch, Activity-Based Controls

One-touch, activity-based controls turn on the right devices in the right order with a single command—making it easy for anyone in the family to use.

3.5-inch, Full-Color Touch Screen

A 3.5-inch, full-color touch screen lets you access the most-used buttons with one hand or two, and it's backlit so you can see your icons even in the dark.

Customizable On-Screen Commands and Icons

Customizable on-screen commands and icons let you choose which commands you see and when, giving you complete control over your entertainment system.

RF Wireless Capability

RF wireless capability lets you control devices you can't see when you add a Logitech® Harmony RF Extender (sold separately).
